5

PMP Eligibility

6

Eligibility Requirements

With a College Degree

- Bachelor's degree or higher (or global equivalent)
- **36 months/3 years** experience leading and managing projects within the past eight years
- 35 hours of project management education /training.
- Submit an application for approval
- Agree to adhere to the PMI Code of Ethics

Without a College Degree

- High school diploma, secondary school or Associates degree
- **60 months/5 years** experience leading and managing projects within the past eight years
- 35 hours of project management education /training.
- Submit an application for approval
- Agree to adhere to the PMI Code of Ethics

7

Eligibility FAQs

How do I know if my experience qualifies as project management?

1. Projects have a definitive start date and a target end date
2. Projects deliver measurable value to the internal or external customer in return for the investment of resources
3. Projects managers drive change, (e.g. new/revised product, process, service, or result)

8

Eligibility FAQs

Must I have the title Project Manager to claim experience?

No, most applicants do not have that title. A position title does not always reflect the type of work performed.

If my project started more than 8 yrs ago, can I still use it?

Yes, you can get credit for the months of work within the 8-year window.

Must the project be complete and successful to claim it?

No. You can claim work done on projects that were prematurely closed and/or did not meet objectives. It happens.

Must the 35 or 60 months be consecutive?

Projects are not on-going; they have start and end dates. So, you can have time gaps between projects.

Must I be a PMI member to apply?

No, it is not a requirement, but recommended.

Being a member will reduce the cost of the exam from \$675 to \$425, a \$250 difference

Annual Membership is \$164, or a \$86 savings

9

Eligibility FAQs

What if my eligibility expires and I have not taken the exam?

Your application is valid for one (1) year from the date of approval. If you allow your eligibility to lapse, you must re-apply.

Is the exam available in languages other than English?

Yes, the exam is available in most major languages spoken in the world.

What if I fail the exam?

If you fail the exam on your first attempt, you can re-take it two more times within your one-year eligibility period.

Reduced fees are associated with each re-examination. Details for re-examination can be found in the certification handbook. Some restrictions may apply.

12

General Audit FAQ's

Why does PMI conduct application audits?

- PMI conducts application audits to confirm the experience and/or education documented on certification applications.

How many days do I have to complete the audit package?

- Candidates have 90 days to complete and submit their audit paperwork.

How do I submit my audit package to PMI?

- Candidates can log into their myPMI dashboard and select 'Access Audit Package'.
- Simply upload academic and professional education requirements.
- Additionally, users can send references/validator information electronically.

8
9

13

General Audit FAQ's

If the projects and/or programs listed were completed in a highly classified environment, or a company is very sensitive about proprietary information, how should this be handled?

- Candidates should have the information verified in a way that is consistent with company practices and policies.
- Candidates may black out any proprietary information
- PMI may also provide a letter of intent to any managers or supervisors upon request to support the candidate's application efforts.

14

General Audit FAQ's

What steps need to be taken when an audit candidate decides not to proceed with the audit?

- If a candidate chooses not to complete the audit, it is considered a failed audit due to non-conformance.
- A candidate may reapply after one year.
- At that time, a new certification application must be submitted, and payment must be submitted,
- The new application will be subject to a re-audit.

What happens in the case of a failed audit?

- The Certification Department will address further actions on a case-by-case basis.

Get started

Understanding test accommodations

We provide appropriate arrangements to individuals who demonstrate a documented need. Test accommodations are individualized, so we consider them on a case-by-case basis in partnership with your testing program. Test accommodations may also be known as "special arrangements" or "reasonable adjustments."

Pearson VUE test accommodations may include:

- Extra testing time
- A separate testing room
- Breaks

<https://home.pearsonvue.com/pmi>

32

The Exam Experience

33

The Day of the Exam

- Arrive early to testing center
- Dress in layers; centers are often cold.
- No notes, calculators, smart watches or smart glasses allowed
- Test starts with a tutorial
- Test ends with a survey
- Tentative results are available as part of the testing experience
- PMI does not publish required score to pass.

37

What to Avoid Before Your Exam

You should be wary of organizations or trainers that:

- Promote "100% pass rates"
- "Guarantee" you will pass on first attempt
- Say they have "seen the test"
- Promise to "pass without taking the exam"
- Encourage candidates to take pictures or notes of exam questions

REPORT THEM PLEASE!

Email your information to: examsecurity@pmi.org

38

Exam Security FAQs

What are the consequences of misconduct during exams?

First, if your proctor detects misconduct during your exam, s/he can immediately end your testing session. Additionally, our Exam Security team will investigate any instances of suspected misconduct.

If the investigation shows misconduct did occur, **PMI can take disciplinary action**, including:

- Canceling your score
- Revoking your certification(s)
- Banning you from taking PMI exams, either permanently or for a period of time
- **Pursuing legal action**

39

Tips and Techniques for Passing the Exam

40

Exam Tips

You can skip questions and mark for review

- Answer every question (no negative scoring)
- PMI does not share scoring system or passing score

Exam is about analyzing situations, solving problems and making decisions

◦ Carefully read every word!

◦ Watch for keywords:

- Best
- First/Next
- Most Likely
- Least Likely
- Except
- Not

41

Exam Tip

- Take as many PMP practice questions as possible!
- Review the *Agile Practice Guide*
- Use TestPrep in certification mode at least 3 times
- Facing a tough question on the actual exam?
 - First stop - breathe in - breathe out.
 - Second analyze the question and provide your best guess.
- **Trust you intuition.**
- You do not have to be perfect to pass!

42

What are PMI-isms?

- PMI-isms are essential guidelines and best practices derived from the Project Management Institute (PMI).
- Understanding PMI-isms helps you choose the correct answers on the PMP exam by thinking like PMI expects a project manager to act.
- PMI-isms provide a foundation, but they are not a substitute for critical thinking and analysis.

43

PMI-isms

- Answer questions from the perspective of a servant leader
- Risk and Stakeholder management are ongoing
- Understand the root cause of a problem before acting
- Use emotional intelligence to solve problems effectively
- Keep your stakeholders engaged with your project

44

PMI-isms

- Be proactive when issues arise.
- Face-to-face communication is the best option
- Support vs. resist change
- Escalation is the last resort
- Always do what is ethical (responsibility, respect, honesty and fairness)

45

How to Analyze Exam Questions

46

Four Factor Analyze

Focus	Use context clues to identify the area of focus <ul style="list-style-type: none"> • Scope, Schedule, Cost, Quality, Risk, Stakeholder, Team etc.
Timing	Identify the stage of the life cycle <ul style="list-style-type: none"> • Initiate, Plan, Execute, Monitor & Control or Close or • Product or Sprint Planning, Execution, Sprint Review, Sprint Retrospective
Principles & Method	Identify the PM principles and method involved <ul style="list-style-type: none"> • Predictive/Plan-based • Agile/Change-based, or • Hybrid
Techniques	Consider relevant tools and techniques that align <ul style="list-style-type: none"> • Each method has its tools, ceremonies and artifacts.

47

Analyze Practice Questions

	Question	Options
Focus	<p>You are leading a project team currently working on a new accounting software implementation.</p> <p>Two team members have an intense disagreement about the approach to a key deliverable. Insults are exchanged.</p> <p>What should you do first to resolve the disagreement?</p>	<p>a) Escalate the issue to the project sponsor.</p> <p>b) Schedule a meeting with the team members to understand their perspectives.</p> <p>c) Assign a new team member to take over the task.</p> <p>d) Ignore the conflict and let the team members work it out themselves.</p>
Timing		
Principles/ Method		
Techniques		

48

Analyze Practice Questions

	Question	Options
Focus	<p>Peter is managing a construction project, and during a routine inspection, one of the quality inspectors identifies a potential issue with the foundation that could cause delays.</p> <p>What is the next step Peter should take to ensure the issue is properly addressed?</p>	a) Inform the project sponsor about the potential delays.
Timing		b) Update the risk register with the new information.
Principles /Method		c) Implement immediate corrective actions, without further analysis
Techniques		d) Conduct a thorough root cause analysis and update the project management plan with the findings.

49

Analyze Practice Questions

	Question	Options
Focus	<p>During the execution phase of a software development project, a sudden problem occurs, causing significant disruption to the project schedule.</p> <p>As the project manager, you need to take immediate action to address this problem.</p> <p>Which of the following actions is the least likely to be effective in managing the situation?</p>	a) Conduct a risk reassessment to identify other potential risks.
Timing		b) Implement a workaround to address the immediate impact.
Principles /Method		c) Update the risk register and adjust the project plan.
Techniques		d) Escalate the issue to senior management for guidance.

50

Analyze Practice Questions

	Question	Options
Focus	You are managing a software development project using Scrum.	a) Immediately start working on fixing the feature in the current sprint.
Timing	During a sprint review, the team discovers that one of the critical features implemented is not meeting the customer's expectations.	b) Add the feedback to the product backlog and prioritize it with the product owner.
Principles /Method	What is the most appropriate action to take next?	c) Escalate the issue to senior management for immediate resolution.
Techniques		d) Extend the sprint to address the customer's feedback.

51

Analyze Practice Questions

	Question	Options
Focus	Your agile project team planned to complete six user stories in the current sprint. As the sprint progresses, it becomes clear that only four stories will be completed by the end of the sprint.	a) Return the remaining stories to the product backlog for replanning.
Timing	What should you do with the remaining two user stories?	b) Extend the sprint to complete the remaining stories.
Principles /Method		c) Reassign additional resources to ensure all stories are completed.
Techniques		d) Work on the remaining stories during the next sprint without replanning.

52

Analyze Practice Questions

	Question	Options
Focus	<p>Juliette is managing a project to develop a new e-commerce platform. The planning phase involved detailed requirements gathering and scheduling. During execution, the team is using iterative development cycles to build and test the platform's features.</p> <p>Unexpectedly, the marketing team submits a request to add a new feature for real-time inventory tracking.</p> <p>What is the most appropriate action to take?</p>	a) Reject the change request since the project is already in execution.
Timing		b) Assess the change request using the integrated change control process and feedback from the development team.
Principles /Method		c) Implement the change request immediately to maintain project flexibility.
Techniques		d) Postpone the change request until the next phase of the project.

57

Certification Requirements

What are PDUs?

PDUs stand for Professional Development Units

- 1 PDU = 1 hour of learning/activity.

When reporting PDU activities, is any supporting documentation required?

- You do not need to attach supporting documentation, unless you are audited.
- PMI recommends retaining documentation for at least 18 months

How can I maintain several certifications at once?

- The CCR process enables certain PDUs to be shared across your certifications, simplifying the maintenance process.

Can I get an extension beyond the suspension expiration date?

- Certification holders who are military personnel called to active duty, incapacitated due to illness or out on maternity leave can request an extension.

58

Certification Requirements

Where do I report my PDUs?

Report them here:

<https://ccrs.pmi.org>

Do I need a special username or password to use CCRS?

No. You will use the same username and password that you use to access PMI.org.

CCRS uses PMI single sign-on technology, which enables you to log in only once to gain access to all PMI systems and resources.
